

BLUEBEAM® REVU® Intermediate

Length: 8 hours
Level: Intermediate
Prerequisites: [Bluebeam Revu Essentials](#) or equivalent experience using Bluebeam Revu
Delivery: On-Site or Virtual

DESCRIPTION

You've had some basic training or have been using Bluebeam Revu on your own for some time, and you're ready to do more. This class is designed for Bluebeam Revu users just like you. This class teaches students how to perform revision control functions like slip-sheeting, how to digitally sign and secure documents, as well as a host of other intermediate capabilities. Students will leave with an expanded knowledge of Bluebeam Revu's capabilities and be able to identify areas of continued study.

CONTENT

Editing PDF Content

- Raster versus Vector PDF Files
- Optical Character Recognition (OCR)
- Edit Text
- Copy PDF Content
- Erase PDF Content
- Add PDF Content to Tool Sets

Document Manipulation

- Replace Pages
